

## **A Company that Practices Environmental Stewardship and is ISO 14001 Compliant**

More than green, we believe in environmental stewardship. We are currently pursuing full registration to the ISO 14001 environmental standard. Our system is fully documented and compliant to this standard as determined by third party review. Our commitment to achieve ISO 14001 registration is a statement we have chosen to make to demonstrate sound environmental performance by controlling the impact of our manufacturing activities, product and services on the environment. Our objective is to exceed all regulatory and statutory requirements, and constantly focusing on better way of producing product with processes that reflect our commitment to environmental stewardship.
